

Vision

PS! works to improve patient safety across Danish healthcare. Citizens and patients should experience a safe, effective and coherent healthcare – every person, every time.

Mission

Accelerate improvement of patient safety in a coherent healthcare system.

Strategy

PS! develops, co-creates and facilitates sustainable and scalable results that promote patient safety. We build culture, capacity and capability to change and improve outcomes.

Roles

To promote

To integrate and facilitate

To implement

To share and spread knowledge
